

Madina Water Tank

The Madina tank is made from the world's most technologically advanced food-grade LLDPE. It is a high-tech, synthetic product that is used all over Bangladesh. It is highly durable, affordable, and made in various colors, sizes, and many categories (such as Madina, Deluxe, Cool, Premium, Natural/Transparent, and Chemical/Hot Water Tank) to cater to customer demand. As it is 100% free of holes and rust, therefore, there are no possibilities of penetration of insects.
